

Start with a Base art - text placement design which will be consistent through out the order This product is button for - reunions -- meetings -- teams.

Buttons individualized.

1. from list of names.... with individual digital image files sent (1 photo per file) group on CD and Mail to us.
2. from list of names.... with year book.....
3. from list of names.... with individual regular photo prints (snap shots) year book pages may be provided...
4. or whole year book sent to be scanned for individual photos (to be returned intact ~ extra ship weight)

You must order size and quantity of buttons with basic art [photo/name placement] design. Allow space for names to be typeset and matched to pic.

additional info: Guest and Spouses can have a Name button to somewhat match the Graduates name button. We suggest a variation of the BASE design... to allow for 1. NO PIC.. (perhaps a mascot in center of button) and 2. space on button (bottom?) light color background for guest name to be hand printed in (suggest a Sharpie marker)
